All properties as defined in the customer audit project, including the areas where the water midblock reticulations have been moved to the road reserve, will also be charged a once off levy of **R 55, 00** for the uploading process, subject to the approval of the Chief Financial Officer and the Executive Director Infrastructure Services.

13.6 Accessibility problems and After Hours Readings (Tariff Code WA0090)

Security townships without a manned gate during day light office hours will be charged a fixed tariff of **R 55, 00** per meter per month over and above an estimated or actual consumption charge. Alternatively, an application can be made by the Home Owner's Association, to have a bulk water meter installed, (at Council's cost), outside the entrance of the security township. The total water consumption will then be charged to the Home Owner's Association account. The onus will be on the Home Owner's Association to calculate the individual water accounts of the dwelling units in the security township.

In the event a gate is locked at any other premises and the water meter is inside and inaccessible due to the locked gate, the same charge as detailed above will be levied.

The same charge of **R55, 00** will also apply to pre-arrange after hour readings.

THE FOLLOWING SHALL BE NOTED:

1. The Ekurhuleni Metropolitan Municipality shall have the right to restrict the water supply to any customer who has unsettled debt with the Municipality.
2. The figures quoted in this Schedule of Tariffs **EXCLUDE** Value Added Tax.
3. These tariffs shall be read in conjunction with the By-laws for the Supply of Water Services published by the Ekurhuleni Metropolitan Municipality
